INTRODUCTION

I am VASAVA RAHULKUMAR JALAMSINH student of GOVERNMENT SCIENCE COLLEGE SEC-15, GANDHINAGAR going to complete the post graduation with Organic chemistry under the valuable guidance of professor Dr. R.R.PATEL.

I had taken industrial training for 21 days and gain knowledge, I joined INDAMED PHARMACEUTICALS PVT. LTD. and here in this report I am showing and briefing myself knowledge which I gained and learned from the valuable public sector industry in INDAMED PHARMACEUTICALS PVT. LTD. I have completed my training in INDAMED PHARMACEUTICALS PVT. LTD. and submit my training report in my college.

CONCLUSION

IT is great experience to take industrial training .The industrial training program is very advantageous me. This training helps to me understand the basic concepts about the industry.

It is sharpen my theoretical concepts through the practical point of view. During this period, I become aware of the problem faced in the plant and am also aware of the industrial atmosphere and also with industrial people. They also learn how to talk & behave with the different types of peoples.

The most important thing, which I have learnt in the plant training, is industrial disciplines which increase our mind concentration. Another thing I learnt is how theoretical

knowledge is applied to the practical & what the temperature of that theoretical knowledge.

All the workers have joined hand to hand for achievement of industry. The success of their industry is the result of the efficiency of management, efforts of employees and their good co-ordination.

• In short, the industrial training gives me a clear concept about the industrial behaviour, which my actual future field.
