SAY NO TO OVERLOADING OF YOUR ELECTRICAL NETWORK. REGULARISE YOUR CONNECTION TODAY.

Overloading the electrical network or misuse of electricity harms individuals and puts communities at risk.

- Avoid using unauthorised load beyond sanctioned load
- Avoid extending power supply beyond the permitted area of use
- Avoid using electricity for the purpose other than for which the usage of electricity was authorised.

The above acts are considered as unauthorised use of electricity under section 129 of Electricity Act - 2003.
Use of load beyond sanctioned capacity causes overloading of electrical network. This can result in overheating and cause fire accidents. It also reduces the life of electrical assets.
