1) Executive Summary

- An environmental audit is a snapshot in time, in which one assesses campus performance in complying with applicable environmental laws and regulations. Though a helpful benchmark, the audit almost immediately becomes outdated unless there is some mechanism in place to continue the effort of monitoring environmental compliance. Government Science College, Gandhinagar already done internal green assessment of the campus and annual data has been generated showing the colleges commitment towards environmental conservation and sustainable use of the natural resources including preservation of biodiversity. Audit criterion is environmental cognizance, waste minimization and management, biodiversity conservation, water conservation, energy conservation and environmental legislation compliance by the campus. A questionnaire is used during audit. This audit report contains observation and recommendations for improvement of environmental consciousness.
- During the audit, it was reported that campus has good green cover and college is regularly conducting plantation drive for more greening the campus. The college is also following the rule of save energy by minimizing the various resources.
- College is conducting various environmental awareness programs for the students, teaching and non-teaching faculties by celebrating various days as mentioned in the report.
- The audit program has been initiated for the year 2019-20 from 18/06/2020 and completed the sampling process in three days. After a week a report has been received.

2) Acknowledgment

On behalf of the Environmental Audit & Consultancy Cell at Atmiya University, Rajkot, we would like to express our sincere gratitude to the management of **Government Science College, Sector-15, Gandhinagar** for entrusting us with the important task of conducting their Environmental Audit/Green Audit.

We deeply appreciate the cooperation extended by your team throughout the assessment process. This cooperation was instrumental in the successful completion of the audit.

We would also like to extend our special thanks to Dr. S. K. Patel **Coordinator, IQAC**, for their unwavering support. Their dedication proved to be invaluable in ensuring the project's completion. Finally, we thank all other staff members who actively participated in data collection and field measurements. Their contributions were essential to the smooth execution of the audit.

We are also thankful to:

3) **Disclaimer**

This Green Audit report has been prepared by the Environmental Audit & Consultancy Cell (EA&CC) at Atmiya University, Rajkot, for of **Government Science College, Sector-15, Gandhinagar**. It incorporates data submitted by college officials/representatives along with expert analysis by the EA&CC Audit team.

While all reasonable efforts have been made to ensure its accuracy, the report is based on information gathered in good faith. Conclusions are based on best estimates and do not constitute any express or implied warranty or undertaking. The EA&CC at Atmiya University, Rajkot assumes no responsibility for any direct or consequential loss arising from the use of the information, statements, or forecasts in this report.

The findings presented in this report are based entirely on data provided by **Government Science College, Sector-15, Gandhinagar** and gathered by the audit team during their audit & monitoring visit. It assumes normal operating conditions within the institution throughout the audit period. The auditors are unable to comment on environmental audit parameters outside the scope of the on-site surveys. Consequently, the report's findings are strictly limited to the timeframe during which the audit team conducted its assessment.

The EA&CC at Atmiya University, Rajkot, maintains strict confidentiality regarding all information pertaining to **Government Science College, Sector-15, Gandhinagar**. No such information will be disclosed to any third party except public domain knowledge or when required by law or relevant accreditation bodies.

This certificate is valid solely for the current Environmental Audit/Green Audit report. It may be automatically revoked if any significant changes occur in the quantity or quality of waste generation at the aforementioned institute.

4) **Introduction**

Since the 2020-21 academic year, the National Assessment and Accreditation Council (NAAC) requires all Higher Educational Institutions (HEIs) to submit an annual Environmental Audit/Green Audit report. This requirement falls under Criterion 7 of the NAAC accreditation process, which evaluates institutions for their environmental sustainability practices. NAAC, an autonomous body in India, assigns accreditation grades (A, B, or C) based on various criteria, including environmental stewardship.

Furthermore, conducting Environmental Audit/Green Audits aligns with the Corporate Social Responsibility (CSR) initiatives of HEIs. By implementing measures to reduce their carbon footprint, institutions contribute positively to mitigating global warming.

In response to the NAAC mandate, the College management opted for an external Environmental Audit/Green Audit conducted by a qualified professional auditor. Environmental Audit/Green Audit entails a comprehensive environmental assessment, examining both on-campus and off-campus practices that directly or indirectly impact the environment. In essence, it is a systematic process of identifying, quantifying, recording, reporting, and analysing environmental aspects within the institute setting.

Environmental Audit/Green Audits originated as a tool to evaluate institutional activities that might pose risks to human health and the environment. It provides valuable insights for improvement, guiding institutions towards environmentally responsible practices and infrastructure.

The specific areas covered by this audit include Green Campus initiatives, Waste Management, Water Management, Air Pollution Control, Energy Management, and Carbon Footprint reduction strategies employed by the college.

(Audit Period: June 2021 to May 2022)**

The following sections delve deeper into the concept, structure, objectives, methodology, analytical tools, and overall goals of this Green Audit.

Educational institutions are increasingly prioritizing environmental concerns. As a result, innovative concepts are emerging to make campuses more sustainable and eco-friendly. Numerous institutions are adopting various approaches to address environmental challenges within their facilities, such as promoting energy conservation, waste recycling, water use reduction, and rainwater harvesting.

The activities of educational institutions can have both positive and negative environmental impacts. A Green Audit is a formal evaluation process that assesses the college's environmental footprint. It provides a comprehensive picture of the current environmental conditions on campus.

Green Audits are a valuable tool for colleges to identify areas of high energy, water, or resource consumption. This allows institutions to implement targeted changes and achieve cost savings. Additionally, Green Audits can analyse the nature and volume of waste generated, leading to improved recycling programs or waste minimization plans.

Green auditing and the implementation of mitigation measures offer a win-win scenario for institutions, students, and the environment. It can foster health and environmental awareness, promoting values and beliefs that benefit everyone. Green Audits also provide an opportunity for staff and students to gain a deeper understanding of the impact their institution has on the environment.

Furthermore, Green Audits can translate into financial savings by encouraging a reduction in resource usage. This process also empowers students and teachers to develop a sense of ownership for personal and social environmental responsibility.

CLIENT: Government Science College, Gandhinagar
Near G Road, Sector - 15, Gandhinagar - 382016 - Gujarat
(Audit Period: June 2021 to May 2022)

The Green Audit process typically involves collecting primary data, conducting a site visit with college representatives, and reviewing relevant policies, activities, documents, and records.

OBJECTIVE AND SCOPE

The broad aims/benefits of the Environmental Audit/Green Audit would be

- Environmental education through systematic environmental management approach
- Improving environmental standards
- Benchmarking for environmental protection initiatives
- Sustainable use of natural resource in the campus.
- Financial savings through a reduction in resource use
- Curriculum enrichment through practical experience
- Development of ownership, personal and social responsibility for the College campus and its environment
- Enhancement of College profile
- Developing an environmental ethic and value systems in young people

OUTCOMES OF ENVIRONMENT AUDIT TO EDUCATIONAL INSTITUTIONS

There are many advantages of environment audit to an Educational Institute:

1. Protect the environment in and around the campus.
2. Recognize the cost saving methods through waste minimization and energy conservation.
3. Empower the organization to frame a better environmental performance.
4. Portrays good image of institution through its clean and green campus.

6) Environmental Policy

- Generating mass awareness on cleanliness and hygiene amongst students and staff members by holding regular cleanliness drives. The idea is to motivate them to contribute in a proactive manner.
- Activities under 'Swachh Bharat Abhiyan' will be a key component of all the community work being done by NSS, NCC and Green Society volunteers of the college.
- Staff Members will be encouraged to participate in the cleanliness drive in the college campus.
- Events such as poster and slogan competitions, essay writing, spoken word poetry, speeches, skits on 'Swachh Bharat' will be organised.
- Rallies on themes connected with 'Swachh Bharat Abhiyan' in and around the college campus will be conducted to create mass awareness.
- Remove all kinds of waste material like broken furniture, unusable equipment etc.
- Administer of the pledge by students and staff members to maintain cleanliness of the college campus and its surrounding areas on an annual basis.
- Conduct workshops on the 3Rs: Reduce, reusing and recycling of waste.
- Commit to manage waste and maintain clean campus especially during college events.

8) Green Initiatives By the Institute

- College eco club and all departments as well as different NGOs jointly organized plantation drive with in the college campus.
- College is actively participated in the government programmes like *Van Mahotsava*, Environment Day celebration, Gurupurnima day celebration etc.
- Regularly adding new plant species in College Botanical Garden.
- Conservation of the Rare and Endangered plant species.
- College established their own cactus house, Fern house and Orchidarium
- Organised Eco friendly Ganesh idol making competition.
- Celebrating Wild Life week and conduct competition on "Save wild life" theme.
- Celebration of "World sparrow day" by making Artificial nest and water pot from waste material and placed on various trees.

9) **Audit Methodology**

The purpose of the audit was to ensure that the practices followed in the campus are in accordance with the Green Policy adopted by the institution. The criteria, methods and recommendations used in the audit were based on the identified risks. The methodology includes: preparation and filling up of questionnaire, physical inspection of the campus, observation and review of the document, interviewing responsible persons and data analysis, measurements and recommendations. The methodology adopted for this audit was a three-step process comprising of:

1. Data Collection - In preliminary data collection phase, exhaustive data collection was performed using different tools such as observation, survey communicating with responsible persons and measurements.

Following steps were taken for data collection:

- Site Visit
- Data about the general information was collected by observation and interview.
- The power consumption of appliances was recorded by taking an average value in some cases.

2. Data Analysis - Detailed analysis of data collected include: calculation of energy consumption, analysis of latest electricity bill of the campus, Water consumption, Waste Generation and Greenery Management.

3. Recommendation - On the basis of results of data analysis and observations, some steps for reducing power and water consumption were recommended. Proper treatments for waste were also suggested. Use of fossil fuels has to be reduced for the sake of community health.

The above target areas particular to the University was evaluated through questionnaire circulated among the students for data collection.

The following data collected for the following areas during the assessment.

1. Environment & Waste Management
2. Energy Management
3. Water Management

10) Observations & Recommendations

Observations:

- **Land Use:** The college is spread over a 199064 square meter land area.
- **Infrastructure:** The College has modern infrastructure, including smart classrooms, a computer lab, and a library, which may indirectly impact the environment through energy consumption and waste generation.
- **Potential for Water Harvesting:** The presence of a functional borewell suggests potential for implementing rainwater harvesting systems to further conserve water resources.
- **Green Energy Utilization:** The College's adoption of rooftop solar power reflects a proactive approach towards utilizing renewable energy sources.
- **Community Engagement Potential:** College is actively participated in the government programmes like Van Mahotsava, Environment Day celebration, Gurupurnima day celebration etc..
- **Beautiful Campus Greenery:** The presence of over 300+ trees on campus creates a pleasant and environmentally friendly atmosphere.
- **Abundant Natural Light:** The well-designed college building maximizes natural light, promoting energy efficiency and a positive learning environment.

CLIENT: Government Science College, Gandhinagar
Near G Road, Sector - 15, Gandhinagar - 382016 - Gujarat
(Audit Period: June 2021 to May 2022)

Recommendations:

- **Water Conservation Measures:**
 - Install sensor-based faucets in washrooms and urinals to minimize water waste.
 - Implement water meters at various locations across campus to monitor and optimize water consumption.

- **Green Campus Initiatives:**
 - Expand the display of informative posters and slogans promoting the benefits of a green and clean campus.
 - Develop a dense plantation area using the Miyawaki method to create an oxygen bank and enhance campus greenery.

- **Energy Efficiency:**
 - Conduct drive to promote energy conservation, potentially including a designated "power saving day" each quarter.
 - Establish a regular cleaning and maintenance schedule for the rooftop solar panels to ensure optimal energy production.

- **Sustainable Lighting:** Consider installing sensor-activated lights throughout the college premises to further reduce energy consumption.

Environmental Audit Certificate

Government Science College, Sector-15, Gandhinagar, Gujarat-382016-Bharat

For the AY (2022-23)

Environmental Audit for the period June 2022 to May 2023 has been conducted for the Government Science College, Sector-15, Gandhinagar to assess the green initiatives planning and efforts implemented in the college campus like Green Campus Management. This Environmental Audit is also aimed to assess eco-friendly initiatives of the Institute towards sustainability.

It is believed that the institution has presented authentic data on various aspects of working of the institute before the audit team. The recommendations are based on the data presented before the team as they existed at the audit time. This certificate is valid for the audit period only. However, it is subject to automatic cancellation in case of any change in prevailing green practice or misleading data. The findings reported in this audit report are entirely based on data furnished by the institute and data collected by the audit team during the audit. Thus, the findings reported in this audit report are strictly limited to the period when the audit was conducted.

The Environmental Quality in the campus is found adequate and efficacious.

<p>Ravi S. Tank I/c Director, Environmental Audit & Consultancy Cell, Atmiya University, Rajkot-Gujarat-360005-Bharat</p>	 8/6/23
--	----------------

I assure that the data presented is authentic to the best of my knowledge & I agree to comply with the recommendations received this report within a year at maximum after the internal review.

<p>Dr. Mahendra G. Bhatt, Principal, Government Science College, Sector-15, Gandhinagar, Gujarat-382016-Bharat</p>	 08-06-2023 Principal Govt. Science College Gandhinagar
